

Booking Flow – From Package Purchase to Confirmed Session (Updated)

Simple. Fair. Automatic.

A. Minimum Participants Reached → Session Confirmed

Trigger: As soon as a session reaches the minimum required number of participants (e.g. 5), and no teacher is yet assigned, the teacher invitation process starts immediately (in real time).

Emails & Notifications

Automatic emails are sent to:

- Customer
 - Booking confirmation
 - Meeting link (Zoom or Microsoft Teams)
 - Reminder before course start (e.g. 24 hours before)
- Teacher
 - Session confirmation
 - Meeting link (Zoom or Microsoft Teams)
 - Reminder before course start (e.g. 24 hours before)
- Additional notifications:
 - When teacher changes
 - When session is cancelled

 - Manual decision required

Purpose: Transparency, no action required

ACTION REQUIRED (always active)

- No teacher found for a session
- Payment capture failed
- Technical issues / errors
- Manual decision required

Purpose: Administrator must take action

How It Works (High Level)

1. Customer selects package & sessions
2. System checks availability & capacity (real time)
3. Payment pre-authorized
4. When minimum reached: Invite teachers (Accept-Link)
5. Teacher accepts → Session confirmed
6. Payment captured (once per package)
7. If not enough participants → replacement session

Legend (Colors & Symbols)

- Green path: Minimum reached → Session confirmed
- Red path: Minimum NOT reached → Replacement
- Blue path: Customer actions / System steps
- Automatic email / notification
- Information / system note
